

2014 MCSP Educational Workshops

The Michigan Cancer Surveillance Program (MCSP) will be offering a series of educational workshops during 2014. The workshops will be held in Lansing Capital View Building and are free of charge. If you are a new registrar, attendance at the workshops is strongly recommended.

Registration is also open to those who have taken the workshops in the past and seasoned registrars interested in taking a refresher course.

Approximately two weeks prior to each workshop, attendees will receive an email with directions, required materials and any other additional instructions.

Please note! The workshops must be attended in sequence and you must attend BOTH days for workshop 1, as each workshop is designed to build a foundation and help prepare you for the next workshop.

Save the date! The MCSP will also be offering a regional workshop on Friday, September 12th. This workshop will be designed to cover the MCSP cancer reporting requirements and components of quality data (text documentation and edit issues). ***Registration information and workshop agenda will be posted in the spring!***

If you are interested in registering for any of the workshops, please contact Jetty Alverson at alversong@michigan.gov or (517) 335-8855. Please feel free to pass this announcement along to others!
